## CHAMPAGNE & SPARKLING WINE

### CHAMPAGNE | GRAND MARQUE CHAMPAGNE

*the top "grande marque" houses have set the benchmark for consistency and quality in champagne. rarely are their "tete-de-cuvees" eclipsed in their ageworthiness and overall elegance by the grower producers, who are often considered more fashionable than the big houses since arriving on the scene in the last 30 years.*

## CHAMPAGNE & SPARKLING WINE

### CHAMPAGNE | GROWER CHAMPAGNE

*many (but not all) of the champagnes listed in the following sections are made by small growers producers, named for the simple fact that all of their wines are created from grapes which they farm themselves. unlike the grand marques, who purchase a majority of their fruit from many villages across the large champagne region, growers usually focus on one village (or terroir). these exciting producers offer an opportunity to taste the many terroirs of champagne side by side, which is invariably masked in blends from the large houses. the very best growers are making wines that give the large houses a run for their money.*

### CHAMPAGNE | CÔTE DE BLANCS

*a thin band of white chalky soil emerges in this tiny region of champagne and allows for the greatest blanc de blancs champagne to be made. wines from the grand cru villages of le mesnil-sur-ogere and avize are the crème de la crème, but they are trailed closely behind by oger, cramant, oiry, cuis, vertus, and chouilly.*

## CHAMPAGNE & SPARKLING WINE

### CHAMPAGNE | VALLÉE DE LA MARNE

*the cool valley created by the marne river is the perfect climate for pinot meunier. historically seen as just a blending grape, many producers in this region are showcasing its ability to stand alone. cumieres, ay, and mareuil-sur-ay are the most important villages of the marne, with bisseuil, romery, and avenay-val d'or emerging as "ones to watch".*

### CHAMPAGNE | MONTAGNE DE REIMS

*if the cote de blancs produces the most delicate and ethereal wines in champagne, the montagne de reims (where pinot noir reigns supreme) produces its most powerful. montagne de reims wines have the versatility to pair through an entire meal. bouzy, verzenay, ambonnay, and verzy are villages that stand above the rest.*

## WHITES OF THE MEDITERRANEAN

*the mediterranean was the cradle of civilization, as well as the likely birthplace of the vine. historians believe humans first encountered wine grapes in modern day lebanon and by 4100 bce, domesticated them in modern day armenia and georgia. the phoenicians, followed later by the greeks and romans, spread the vine on every side of the sea. though celebrated in antiquity, many of the traditional wines of the mediterranean exist in obscurity today regardless of their clear potential and historic importance. it is believed two-thirds of the vine varieties on earth are indigenous to the mediterranean, and we believe that these wines are natural accompaniments to great mediterranean ingredients found on our menu.*

## LEBANON

*it is only fitting that one of the most iconic wines of the world comes from the place the grapevine is likely indigenous to. gaston hochar, inspired by his friend roland barton to plant cabernet-sauvignon in lebanon, returned with cuttings from château leoville barton. for his white grand vin he sourced grapes local to lebanon, obadieh and merwah, whom both are thought to be related to chardonnay, semillon, and chasselas. gaston's son serge made over fifty vintages, including wines made during the lebanese civil war (1975-1990).*

## GREECE

*the wild west of the mediterranean: greece is home to 227 inhabited islands, most of which have dozens of their own unique grape varieties grown nowhere else.*

### SPAIN | JEREZ DE LA FRONTERA

*sherry, one of the world's greatest wines, is one of its most closely guarded secrets. no other wine has the same spectrum of possibilities. Sherry can be the driest of wines, and it can also be the sweetest. its color can be almost water white in color, or as dark as a guinness. there are many styles of sherry, and each one is unique.*

*according to pliny the elder, in the age of antiquity the wines of mallorca were "comparable to some of rome's finest". following the phylloxera epidemic of the 1800's, mallorca's vineyards were uprooted and replanted to pistachios and almonds. today there is renewed interest in this island due to its unique set of indigenous grape varieties grown nowhere else.*

## FRANCE | CORSICA

## FRANCE | PROVENÇE, RHÔNE, AND LANGUEDOC-ROUSSILLON

*the greeks founded marseilles in 600 bce. it is generally accepted that this was the first true wine region in modern day france.  
though, for millenia wines from the "sud" have been prized, in post wwii-europe they were forgotten about due to neglect and  
overproduction. today these regions have awakened and are sources of incredible whites, rich in both aroma and texture.*

## WHITES OF CONTINENTAL EUROPE

*the top wine regions of continental europe exist as a result of the church and its desire to expand. starting in the middle ages, wine became an integral component of the sacrament and followed catholicism through its expansion. some of the most iconic wines of the world including burgundy, champagne, alsace, and the mosel have the catholic church to thank.*

## FRANCE | BURGUNDY

*by 910ce benedictine and cistercian monks found themselves in burgundy tending vines under charlemagne. the vineyards were slowly delineated, and the best wines went to the church. many of the vineyards, documented centuries ago, still produce some of the most sought after wines in the world.*

## THE BACKROADS OF BURGUNDY

### SPAIN

*just as the church brought the wine grape to northern europe, it also brought it back into the iberian peninsula after an absence of multiple centuries. the camino de santiago pilgrimage reached its apex after the 12th century as the moorish rule began to collapse. devout catholics traveled from as far as modern day czech republic to reach st. james' reputed buirial site at santiago de compostela in galicia. along the way, grape vines were planted for sacramental purposes and many grapes in spain today likely came from countries along this journey.*

*during the age of exploration, the azores were discovered along the journey to the new world. wine from the island of pico was already prized and sold as far away as st. petersburg starting in the 16th century, long before winemaking on the more famous island of madeira had been perfected. after a long period of obscurity, the wines from the volcanic azores are starting to make serious waves as a new terroir for wines of the mid-atlantic.*

## ROSÉ WINES

*historically, rose has been viewed as a simple wine. and though there are "simple" roses (just as there are also simple whites and reds), there are also roses as compelling, ageworthy, and terroir driven as their friends of other colors. the mediterranean is a hotbed for distinct styles of rose, spanning those which are salmon in color, to some that might be confused for a very light red.*

## REDS OF THE MEDITERRANEAN

*the mediterranean is the cradle of civilization, as well as the likely birthplace of the vine. historians believe humans first encountered wine grapes in modern day lebanon and, by 4100 bce, domesticated them in modern day armenia and georgia. the phoenicians, followed later by the greeks and romans, spread the vine on every side of the sea. though celebrated in antiquity, many of the traditional wines of the mediterranean exist in obscurity today regardless of their clear potential and historic importance. it is believed two-thirds of the vine varieties on earth are indigenous to the mediterranean, and we believe that these wines are natural accompaniments to great mediterranean ingredients found on our menu.*

## LEBANON

*it is only fitting that one of the most iconic wines of the world comes from the place the grapevine is likely indigenous to. gaston hochar, inspired by his friend roland barton to plant cabernet-sauvignon in lebanon, returned with cuttings from chateau leoville barton. gaston also planted cinsault and carignan to complete the blend. the resulting wines are spicy, powerful, and age effortlessly. gaston's son serge made over fifty vintages, including wines made during the lebanese civil war (1975-1990).*

## REDS OF EUROPE

### ITALY

*before 1861, hundreds of city states comprised what we now refer to as italy. look no further than the cuisine and wines of these former city states to see that every region has a distinct cultural identity. combined, over 475 grape varieties (many of which are planted nowhere else) span italy's length, which is longer than texas! although latitude plays an important role in the styles of wines that are made in each region, equally impactful is a region's proximity to the coast. below, we separate the coastal areas which share more in common with other mediterranean regions (like greece and southern france) from inland ones which share more in common with cooler continental regions (like burgundy and rioja).*

### FRANCE | SOUTHERN RHÔNE VALLEY

*pope boniface viii (famously depicted in the eighth circle of hell in dante's inferno) set off a chain of events that changed the french wine landscape forever. in 1309 ce, the avignon papacy was born as a result of his feud with king phillip iv, ultimately resulting in his abduction and death. the papacy split and avignon pope (john xii) thereafter developed a papal vineyard: châteauneuf-du-pape (chateau of the new pope). this is the premier region in the world for grenache, blended with up to 17 other indigenous grape varieties.*

### FRANCE | NORTHERN RHONE VALLEY

*in the 17th and 18th century, the wines of hermitage were sold at prices dwarfing what are now first growth bordeaux estates. famously, some bordeaux producers at the time added rhone wines to their blend to add strength and complexity. today the wines of the northern rhone are incredibly undervalued given they demonstrate the height that syrah is capable of.*

## REDS OF EUROPE

*the top wine regions of continental europe exist as a result of the church and its desire to expand. starting in the middle ages, wine became an integral component of the sacrament and followed catholicism through its expansion. some of the most iconic wines of the world including burgundy, champagne, alsace, and the mosel, have the catholic church to thank.*

## FRANCE | BURGUNDY

*red burgundy has an impressive ability to age for decades... but impatience also has its rewards. the following pages follow the specific villages of burgundy north to south, all of whom produce unique and distinctive wines. but first, this page celebrates the emerging regions of burgundy, which often produce delightfully rustic wines despite being less well known.*

## MOREY-ST.-DENIS

*the power of gevreychambertin meets the glorious aromatics of chambolle-musigny. morey was once overshadowed by its neighbors yet today it is gaining the respect it deserves. a conversation about this village wouldn't be complete without the mention of producers like dujac, mommessin, ponsot, hubert lignier, and domaine des lambrays.*

*this vineyard has grown in size over the last hundred years, and now engulfs several previous 1er cru vineyards not deserving of grand cru status. however, the heart of the vineyard is a true grand cru, and one only has to go so far as to taste a bottle from ponsot, lignier, or leroy to witness its true potential.*

DUJAC 2016	934

### CLOS DES LAMBRAYS GRAND CRU

*many famous grand crus produce rich and muscular wines. clos des lambrays is not one of them. light bodied but intense in its aroma, and silky in its texture: a great vintage of clos des lambrays can age for as long as its more powerful neighbor, clos des tart.*

### BONNES MARES GRAND CRU

## REDS OF EUROPE

### SPAIN

*just as the church brought the wine grape to northern europe, it also brought it back into the iberian peninsula after an absence of multiple centuries. the camino de santiago pilgrimage reached its apex after the 12th century as the moorish rule began to collapse. devout catholics traveled from as far as modern day czech republic to reach st. james' reputed burial site at santiago de compostela in galicia. along the way, grape vines were planted for sacramental purposes and many grapes in spain today likely came from countries along this journey.*
